Notes to Editors:

About the Jameel Arts & Health Lab:

With a focus on overlooked and underserved communities, the Jameel Arts & Health Lab leverages scientific evidence, a global 'Healing Arts' campaign, and capacity building, to drive the integration of the arts into mainstream medicine and public health policy across 193 UN member states. The Lab is the first major initiative of its kind to be supported by the World Health Organization.

About Healing Arts:

Healing Arts is the Jameel Arts & Health Lab's global outreach campaign in collaboration with the World Health Organization. Produced internationally by CULTURUNNERS in collaboration with local partners, Healing Arts prioritises silo breaking between academic, cultural and policy communities to drive cross-sector innovation, investment and policy uptake in the field.
